

MatrixCutter 140

INFORMATION

MatrixCutter 140 is a special designed " all-in-one" unit for capturing, cutting, collection and compacting of matrix waste from web process machines.

Lundberg Tech MatrixCutter 140 consist of:

- Funnel
- Silencer
- Granulator GR140MS Matrix
- Ventilator with frequency converter inside cabinet
- Separator inside cabinet
- Filter inside cabinet
- Screw compactor
- El control

Technical Data:

Maximum width of matrix	Up to 550mm
Maximum air capacity	1600 m ³ / hour
Maximum speed	150 m / min.
Maximum pipe size	Dia. 160 transfer
Maximum suction distance	Up to 10m
Number of connected machines	1
Size (LxWxH)	2114 x 980 x 2130 mm
Weight	680 kg
Motor kW	Granulator 1,1 kW Ventilator 2,2 kW Compactor 3,0 kW
Power	3x400V, 50 Hz
Sound	68-72 dB (A)
