

WasteChannelBaler 1500

INFORMATION

Lundberg Tech horizontal baler press provide economical disposal of waste. Material is compacted into stable, square bales of uniform density and same dimensions. These bales are easier to store or transport than non-compacted material and bales can be strips or feeded into plastic tubes.

WasteChannelBaler 1500 consist of:

- Piston system for compressing waste
- Electro-hydraulic motor for unified compressing
- Outlet system for delivering the compressed waste into a plastic tube
- El control

Technical Data:

Capacity	1500 Kg / hour
Compact ratio	5:1 depending on material
Compact force	130 kN
Motor	5,5 kW
Power	3x400 V, 16A, 50 Hz
Surface treatment	Powder lacquering
Inlet flange	700 x 750 mm
Outlet	750 x 750 mm
Size (LxWxH)	2500 x 1050 x 1600 mm
Weight	1600 kg
Color	RAL 5010
